# PolicyLens_Internal - OFFICIAL REGULATORY DIRECTION
# Internal Policy on Account Aggregator (AA) FIP/FIU Consent Architecture and Data Purge

Document ID: DOC_029 | Issuer: PolicyLens_Internal | Issue Date: 2025-08-01 | Source: https://compliance.policylens.example.org/policies/account-aggregator-2025

## Chapter 1: Operational Compliance Guidelines (DOC_029)

## Chapter 2: Operational Compliance Guidelines (DOC_029)

## Section 3: Explicit ReBIT Consent Artefact and 72-Hour Purge on Rejected Applications

3.1 Purpose-Bound Financial Information User (FIU) Consent
When pulling bank statements or GST returns via the RBI Account Aggregator (AA) framework, the digital consent artefact must strictly conform to ReBIT technical specifications, displaying the exact data fetch frequency, date range, and consent expiry date.

3.2 Mandatory Data Purge for Declined or Withdrawn Loan Applications
If a loan application is declined by the credit engine or withdrawn by the applicant prior to sanction, all raw bank statement JSON/PDF files fetched via the Account Aggregator must be permanently purged from staging servers within 72 hours of application closure.
